## euraxess RESEARCHERS IN MOTION

TUNISIA

### FIRST AND FOREMOST...

The Tunisian Euraxess Network (TEN) project is the initiative coordinated by the Unit for the management of European Research and Innovation Framework Programme/ Ministry of Higher Education and Scientific Research (UGPO-MHESR) to boost, encourage and enhance researchers mobility between Tunisia and the European Research Area (ERA).

The Euraxess Portal, which includes the Tunisian national portal, is the convergence point of all the news and useful information about the researcher's mobility (incoming and outgoing) and career support (for mobile and non-mobile researchers). It offers jobs, fundings, partnering opportunities, as well as targeted information and personalised assistance.

To clear the way for researchers, 3 Euraxess Service Centres (ESC) are dispatched in the north (ANPR), the center (University of Sousse) and the south (University of Sfax) and 13 Euraxess Contact Points (ECP) are implemented all over the country. They will offer support and services in order to facilitate researchers mobility convenience through practical assistance and mobility guides.
