

LATE MAY 2024

NEWSLETTER

 TUNISIAN EURAXESS NETWORK

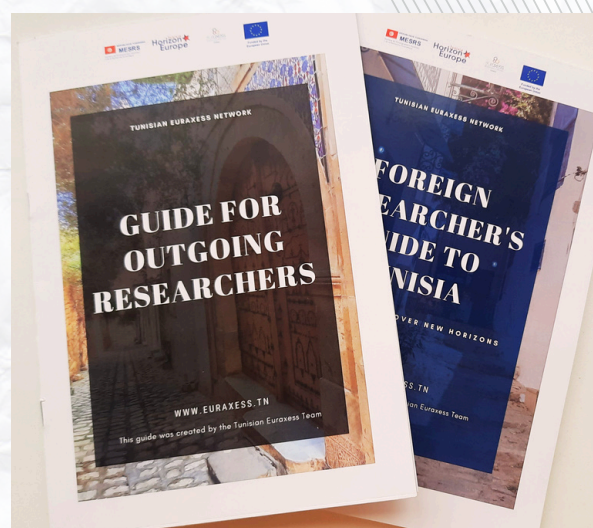

UPCOMING ACTIVITIES

The 2024 Euraxess Biennial Conference is scheduled to take place in Katowice from June 10-12, marking the 20th anniversary of Euraxess. This milestone event will also celebrate the launch of the revamped Euraxess website and the introduction of the ERA Talent Platform. The conference will convene national representatives from across the network to enhance cohesion, showcase achievements, and explore strategies to enhance the appeal of research professions and careers.

The TEN project is scheduled to conclude on May 30, 2024. All deliverables outlined at the project's inception have been successfully achieved. The final project report will be prepared and submitted to the project officer by early September.

TOP NEWS

- Two training sessions were organized at the Euraxess South Centre, located at the Faculty of Sciences in Sfax, on May 24 and 30, 2024. These sessions were dedicated to demonstrating the functionalities and services of the Euraxess Tunisia portal for postdoctoral researchers and PhD students from the southern region of Tunisia. During the trainings, participants were guided through the various sections of the portal, learning how to navigate effectively and take advantage of the numerous features offered. This initiative is part of Euraxess's ongoing efforts to enhance the visibility and accessibility of its network to Tunisian researchers, support their professional development, and promote research excellence in Tunisia.
- The guides "For Incoming and Outgoing Researchers" have been approved and are now available to the community. The printed guides will be distributed at the three Euraxess centers and the BHO office located at the Ministry of Higher Education and Scientific Research headquarters. An electronic version will also be available on the Euraxess portal.

This project is financed by Horizon 2020 under the Grant Agreement n° 101035522
